

The Blue Grass Dental Society invites you to become a Patron in our exclusive Corporate Patron Program. This unique program was established in order to support the Society's continuing education programs and special projects, both educational and professional in nature.

As this publication illustrates, there are many benefits to becoming a Patron Member. Patron Memberships are honored for one fiscal year (July 1 - June 30) and you will be approached only once per year in mid-June for membership renewal dues and not several times as in the past. We also inform the Blue Grass Dental Society members of the goods and services our Patrons offer and encourage them to support these companies or individuals.

We hope you will consider becoming a part of this wonderful organization and take advantage of all the opportunities it has to offer you and your corporation.
